OSHA 10-HOUR GENERAL INDUSTRY - SAFETY TRAINING PROGRAM

The 10-hour program is intended to provide a variety of training on General Industry safety and health to your employees/workers. The 10-hour classes are designed to be presented to workers; therefore they will emphasize hazard identification, avoidance, control and prevention, not OSHA standards.

The class sizes can be from 3 to 40 students and must take place over two days. Training is limited to a maximum of 7.5 student contact hours per day. The entire length of the training day may be longer than 7.5 hours when adding time for breaks and lunch. We will tailor the classes to fit your company's particular needs and environment. At the successful completion of the course, attendees will be issued a certificate of completion and an official OSHA student course completion card. Topics are to be selected from the below table.

10-HOUR GENERAL INDUSTRY REQUIRED COURSE TOPICS	
*OSHA subpart references are provided for informational purposes; training will emphasize hazard awareness	
Mandatory - 6 hours	Elective - 2 hours
<p>Introduction to OSHA – 1 Hour, including: Covers workers' rights, employer responsibilities and how to file a complaint. It includes helpful worker safety and health resources. It also provides samples of a weekly fatality and 3 catastrophe report, material data safety sheet and the OSHA Log of Work-Related Injuries and Illnesses.</p> <p>One Hour Walking and Working Surfaces, Subpart D - including fall protection</p> <p>One Hour Exit Routes, Emergency Action Plans, Fire Prevention Plans, and Fire Protection, Subpart E & L</p> <p>One Hour Electrical, Subpart S</p> <p>One Hour Personal Protective Equipment, Subpart I</p> <p>One Hour Hazard Communication, Subpart Z</p>	<p>Choose at least two of the following elective topics: These topics must add up to at least two hours: Minimum one-half hour each</p> <p>Hazardous Materials, Subpart H Materials Handling, Subpart N Machine Guarding, Subpart O Introduction to Industrial Hygiene, Subpart Z Bloodborne Pathogens, Subpart Z Ergonomics Safety and Health Program Fall Protection</p>
	Optional - 2 hours
	<p>Teach other general industry hazards or policies and/or expand on the mandatory or elective topics. The minimum length of any topic is one-half hour.</p> <p>Special Industry Recommendations: In addition to the (6) mandatory hours, we recommend the groups noted below should receive the following training:</p> <ul style="list-style-type: none"> ○ Medical/Health Care - 1 hour each - Introduction to Industrial Hygiene, Bloodborne Pathogens ○ At least 1/2 hour each - Ergonomics and Workplace Violence ○ Maintenance - Ergonomics and (if applicable) Powered Industrial Trucks ○ Utility - Ergonomics, Powered Generation, and Confined Spaces ○ Office - Ergonomics
